Older people can now make an appointment to get vaccinated against Corona.

Eldery people in Kalmar County are now starting to get vaccinated. But you must make an appointment. First out to make their appointments are people aged 77 and older. Everyone else must wait.

Everyone who wants to get vaccinated against Corona (COVID-19) must make an appointment. But right now, only those aged 77 and over, can make their booking. When they are vaccinated the next group can make an appointment.

Vaccination is good

When vaccinated you are protected from getting ill. But you also protect others. If many people are vaccinated, the virus will not find anyone to infect. Then the Corona pandemi will end.
In a pandemic, everyone must help each other. The more people who get vaccinated, the faster society can become more normal again.
